

ABSTRACT

VASCULAR ENDOTHELIAL GROWTH FACTOR-X

- 5 There is provided a novel vascular endothelial growth
factor, herein designated VEGF-X, in addition to the
nucleic acid molecule encoding it, a host cell
transformed with said vector and compounds which
inhibit or enhance angiogenesis. Also provided is the
10 sequence of a CUB domain present in the sequence of
VEGF-X which domain itself prevents angiogenesis and
which is used to treat diseases associated with
inappropriate vascularisation or angiogenesis.
